

## ZE-KA-FIX® RTU

*With ZE-KA-FIX RTU, you seriously reduce cleaning time*

ZE-KA-FIX RTU has been developed through close co-operation with our business partners in the construction industry.

Join the Industry Leaders who have profited from the positive benefits of our Market Leading range of Maintenance Chemicals

### **CHLORIDE-FREE, HIGHLY CONCENTRATED CLEANER OF CEMENT AND LIMESCALE**

ZE-KA-FIX® RTU is a well proven cleaning agent for all machinery associated with the concrete and cement industries.

ZE-KA-FIX® RTU is chloride-free and can be recycled around the concrete plant without any adverse effect to the following batch of concrete.

ZE-KA-FIX® RTU can be used in any area where concrete is processed, whether on building sites, in ready-mix plants or within precast factories.

ZE-KA-FIX® RTU cleans vehicles very effectively without damaging the lacquer. This means less maintenance and repainting, and less use of harder physical and chemical cleaning methods.

- Quick and thorough cleaning of concrete on machinery and tools
- Reduces cleaning costs and cleaning time
- Does not contain hydrochloric acid
- Chloride free - has no adverse effect on the concrete and will not cause corrosion within the concrete
- Contains corrosion inhibitors
- Metal, rubber, glass and painted surfaces can be treated
- Highly biodegradable -certified by "hygiene institut Gelsenkirchen", Germany

## ZE-KA-FIX®

- Quick and thorough cleaning of concrete on machinery and tools
- Reduces cleaning costs and cleaning time
- Chloride free - has no adverse effect on the concrete and will not cause corrosion within the concrete
- Highly biodegradable - certified by "hygiene institut Gelsenkirchen", Germany
- Does not contain hydrochloric acid
- Contains corrosion inhibitors
- Metal, rubber, glass and painted surfaces can be treated
- Strength of the solution required will vary but should be between undiluted and 3 parts of water

## ZE-KA-FIX® RTU

### CHLORIDE-FREE, EFFECTIVE CEMENT AND LIMESTONE CLEANER

#### DESCRIPTION

ZE-KA-FIX® RTU is supplied ready to use. Concentration as supplied is 9.9%, allowing use either undiluted for optimum performance, or diluted 1-3 parts of ZE-KA-FIX RTU and water for areas of lower contamination.

As supplied the product is NOT classified as Hazardous in use, so meets today's more stringent Health & Safety guidelines.

#### PROCESSING

ZE-KA-FIX® RTU is applied to the surfaces with either a brush or sprayer. Immediately the solution of ZE-KA-FIX® RTU hits the surface, it forms a foam which attacks the cement. This foaming will slowly diminish, and so a new layer of ZE-KA-FIX® RTU will need to be applied. This process needs repeating until the surface is cleaned. It is advisable to agitate the ZE-KA-FIX® RTU solution with a brush whilst it is reacting on the surface.

ZE-KA-FIX® RTU can be applied to most surfaces, metal, good enamel, wood, rubber and glass are not damaged.

ZE-KA-FIX® RTU contains no hydrochloric acid and inhibits the corrosion!

ZE-KA-FIX® RTU is not poisonous and can be let into the drains once it has been highly diluted.

#### TECHNICAL DATA

Color: green  
Form: liquid  
Spec weight: approx. 1,06  
pH value: < 1

#### PRECAUTION

Wear suitable PPE whilst applying ZE-KA-FIX® RTU. Wash splashes off skin with plenty of clean water. Wash splashes from eyes with copious amounts of clean water. Always refer to the safety data sheet.

#### REMARK
